ABOUT ME

As a Front-End developer I would like to work on meaningful projects in a friendly and helpful enviroment. What I find important is the opportunity to keep learning and using the latest technologies to stay up to date. I prefer to use modern Front-End frameworks like React.js, Vue.js or Flutter and write clean and reusable code.

WORK EXPERIENCE

30/04/2021 – 31/07/2022 Brno, Czechia

Front-End developer Transport Research Centre
